

Capital Construction Contracting Inc. has been in business for almost 12 years. They spent their first two years focusing solely on the exteriors of homes, but since then have expanded their talents from roofing and siding to all home improvements!

The de Oliveira Castro family moved to Boston in 2012, however, they did not find the home of their dreams until late 2015. The house hunting journey as many of us know is a very tedious and stressful time, but as soon as they found their home in Brookline, MA they knew it was the right fit for their family.

As you enter this hidden gem of a town you forget you are in part of the Greater Boston area and Suffolk County; the sprawling gardens, yards, and beautiful driveways engulf your eyes and make you feel home. If you look further past the gates and walkways you will catch a glimpse of the gorgeous Colonials, Victorians, and Federal Revivals that sit so gracefully in their yards. The de Oliveira Castro family was excited to discover this beautiful town with such proximity to the city!

After the papers were signed, David, the owner of Capital Construction Contracting Inc. and Sales Manager, Jude, were on site

"We felt home the minute Capital Construction closed the door and walked away. We were like this it is, this is perfect!"

-Roberto de Oliveira Castro
Architect/Homeowner

to walk the property. They had worked on previous projects with the family and wanted to fully understand the vision Roberto and Gabi had for themselves and their three daughters.

That vision was brought to light easily for David and Jude as they had the help of Roberto, who is the owner and lead architect of de Oliveira Castro Architects. Roberto was able to put his family's personal design into each and every room, while Capital Construction Contracting Inc. brought these visions to life with their expertise and attention to detail!
